

IMMUNOCAL BY THE NUMBERS

More than
300,000,000
Servings sold

THAT'S
TWO SERVINGS
SOLD EVERY
SECOND!

5,000,000
Servings per month and counting!
Immunocal is a convenient and effective way to raise glutathione, the body's master antioxidant.

43
Years of
research

23
Years sold
by Immunotec

Immunocal was discovered in the early 1980s by renowned scientists and researchers working on immune system health in Montreal, Canada.

\$25,000,000
Invested in research

Immunotec abides by the gold standard in medical research: randomized, statistically significant double-blind, placebo-controlled, human studies.

28

Universities involved in Immunocal research
Immunotec continues to attract research proposals from prominent educational institutions around the world.

20 Years in the
PDR and CPS

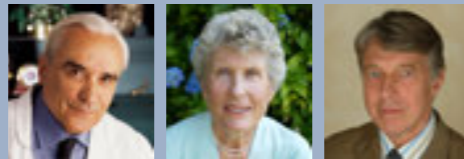

The United States' Physician's Desk Reference and Canada's Compendium of Pharmaceutical Specialties are two of the medical profession's most-respected sources of information.

Global presence:
Currently
doing
business in
8 countries

Immunotec is following a long-term growth plan, building a loyal customer base of millions worldwide. Two new countries were opened in 2018, with more scheduled in the near future.

402 Scientific articles
written by the creators
of Immunocal

Their research showed that Immunocal supplies your cells with the specific building blocks needed to raise glutathione, the body's master antioxidant, thereby improving immune function.

Number of patents issued: 78
Immunocal achieved global recognition through patents issued in the U.S., Canada, and 26 other countries around the world.

61 published research articles
39 clinical studies appearing in
25 different medical journals

Frequent publication in these respected journals sets Immunocal apart from other natural health products.

This is the **MOST** important natural health product you will ever use

Immunocal is a unique, globally recognized and specially formulated, natural whey protein that has been clinically demonstrated to maintain your immune system.

Immunotec
the science of living better

“Immunocal is a natural source of the glutathione precursor cysteine for the maintenance of a strong immune system.”

Approved Health Canada claim

The PDR (USA) and CPS (Canada) are two of the medical profession's most-respected sources of information. Immunocal is listed in both.

IMMUNOCAL® ORIGINAL FORMULA

Doctors Gustavo Bounous and Patricia Kongshavn discovered the role of a specially-prepared whey protein isolate in raising glutathione

Over forty years ago, their research showed that by providing special proteins (Immunocal) which supply your cells with the specific building blocks needed for them to raise glutathione (see below), immune function is improved. Immunocal has since achieved global recognition through patents issued in the U.S., Canada, and countries around the world.

KEY BENEFITS

- 1 Maintains a strong immune system
- 2 Helps build antibodies
- 3 Helps increase muscle strength and enhance performance when combined with regular exercise

“Immunocal helps increase muscle strength and enhance performance when combined with regular exercise.”

Approved Health Canada claim

GLUTATHIONE: THE MASTER ANTIOXIDANT

The molecule glutathione is critical for healthy immune function. For a variety of reasons including aging, lack of exercise or over-training, poor diet, stress, and health challenges, our natural ability to produce glutathione becomes reduced, leaving defenses weakened.

Dissolved in juice, or mixed with yogurt or applesauce, 1-2 pouches of Immunocal or Platinum per day delivers the full spectrum of benefits.

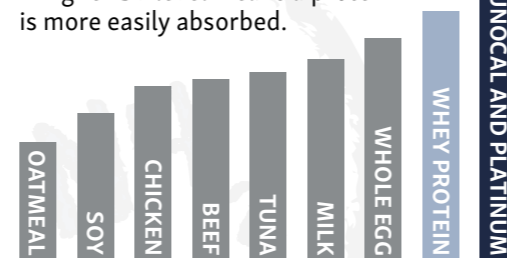

IMMUNOCAL IS Fat-free ● Gluten-free ● Sugar-free ● Antibiotic-free ● Well-tolerated by lactose-intolerant individuals

IT ALL STARTS WITH THE IMMUNE SYSTEM

Having a strong immune system is linked to healthier aging, resistance to health challenges, and giving you an edge on some of the major health issues facing us today. Living in today's world places many demands on your glutathione levels. Maintaining glutathione is essential for your health.

BIOLOGICAL VALUE (BV) OF SELECTED PROTEINS

A higher BV level means a protein is more easily absorbed.

MEDICAL EXPERTISE

World-renowned expert on glutathione and best-selling author on the topic. Dr. Jimmy Gutman is Immunotec's Chief Science Officer.

Immunocal's research was originally conducted in laboratories, but for years has been studied in human clinical trials. Studies have been conducted on adults, the elderly, athletes, and children. Study protocols have been subjected to independent verification and review by government agencies and medical professionals, when required.

KEY BENEFITS

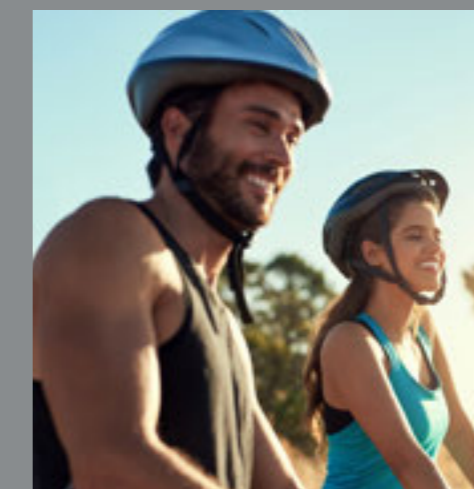

- 1 Maintains a strong immune system
- 2 Helps build antibodies
- 3 Helps increase muscle strength and enhance performance when combined with regular exercise
- 4 CMP™ adds protective peptides
- 5 RMF supports bone health by reducing calcium loss

Immunocal is a product that people of all ages can benefit from

THE PLATINUM TRIPLE ADVANTAGE

Platinum's advanced formula makes it a superior choice for all ages and lifestyles, and also makes it the ideal supplement for athletes and seniors

Immunocal Platinum has all the goodness found in Immunocal with two additional components added: CMP™ which adds protective peptides and RMF which supports bone health by reducing calcium loss. Maintaining good immune function is linked to healthier aging and resistance to health challenges resulting in improved quality of life.

Immunocal has powered elite professional and amateur athletes, worldwide, including multiple Olympian gold, silver, and bronze medalists. Informed-Choice is a quality assurance program for sports nutrition products, suppliers to the sports nutrition industry, and supplement manufacturing facilities. The program certifies that all nutritional supplements and/or ingredients that bear its logo have been tested for banned substances by the world class sports anti-doping lab, LGC.
